McDonald Group – Detector Physics

Papers by the McDonald Group fall into several categories, which will be listed in separate sections of this bibliography.

1. Studies of the Drell-Yan process and pion structure; these appear under the **Smith Group**.
2. Detector Physics, including efforts towards the Bottom Collider Detector at the SSC.
3. Accelerator Physics, other than efforts towards a Muon Collider and Neutrino Factory.
4. BaBar experiment at SLAC; not listed here.
4. Muon Collider and Neutrino Factory.
5. DayaBay Reactor Neutrino Experiment.
